3rd Grade Math Worksheet

Name _____ Date _____

Simple Number Patterns

Find the pattern and complete the next three numbers.

1. 5, 7, 9, 11, 13, 15, 17, _____
2. 27, 30, 33, 36, 39, 42, 45, _____
3. 33, 35, 37, 39, 41, 43, 45, _____
4. 70, 67, 64, 61, 58, 55, 52, _____
5. 9, 18, 27, 36, 45, 54, 63, _____
6. 76, 72, 68, 64, 60, 56, 52, _____
7. 20, 29, 38, 47, 56, 65, 74, _____
8. 63, 59, 55, 51, 47, 43, 39, _____
9. 58, 54, 50, 46, 42, 38, 34, _____
10. 91, 83, 75, 67, 59, 51, 43, _____
11. 94, 85, 76, 67, 58, 49, 40, _____
12. 2, 10, 18, 26, 34, 42, 50, _____
13. 9, 17, 25, 33, 41, 49, 57, _____
14. 25, 34, 43, 52, 61, 70, 79, _____
15. 5, 14, 23, 32, 41, 50, 59, _____
16. 8, 11, 14, 17, 20, 23, 26, _____
17. 91, 84, 77, 70, 63, 56, 49, _____
18. 62, 59, 56, 53, 50, 47, 44, _____
19. 37, 41, 45, 49, 53, 57, 61, _____
20. 73, 71, 69, 67, 65, 63, 61, _____

Take a look at our times table coloring pages, or maybe some of our fraction of shapes worksheets. Top of Page On this page there are a selection of bar and picture graphs, including bar graphs with real-life data such as tree heights. Use and understand fraction notation. Solve 1- and 2-step problems involving data. Need to create your own long or short multiplication worksheets quickly and easily? Math Puzzle Worksheets 3rd Grade Our 3rd Grade Math Games Ebook contains all of our fun maths games, complete with instructions and resources. A great way to revise topics, or use as a weekly math quiz! The worksheets on this page will help to develop children's knowledge of numbers bonds to 20, 50 and 100. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills. Top of Page Using these sheets will help your child to: understand what fractions are; relate fractions to everyday objects and quantities; place different fractions on a number line; shade in different fractions of a shapes; work out unit fractions of numbers. recognise and identify right angles and lines of symmetry; recognise and identify parallel lines; identify the faces, edges, vertices and nets of 3d shapes; Top of Page Metric Conversion Worksheets Using these sheets will help your child to: understand area and perimeter; learn how to find the area and perimeter of rectangles. Partition shapes into parts with equal areas and relate these to fractions. Here are the standards for the end of the year for 3rd Grade. Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. Use place value to round numbers to the nearest 10 or 100 Understand and use place value with 4 digit numbers Read, write, compare and order 4-digit numbers Use place value to mentally add or subtract 1, 10, 100 or 1000 from any 4-digit number Identify and explain patterns in numbers or arithmetic. Fluently add and subtract within 1000 Fluently multiply and divide within 100. Understand the relationship between multiplication and division. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. Find the perimeter of a range of rectilinear shapes. This page contains links to other Math webpages where you will find a range of activities and resources. Each quiz tests the children on a range of math topics from number facts and mental arithmetic to geometry, fraction and measures questions. Read scales involving halves and fourths of units Tell and write the time to the nearest minute. They are completely FREE - take a look! 3rd Grade Math Grab Packs Top of Page How to Print or Save these sheets Need help with printing or saving? These sheets are aimed at 3rd graders. On this webpage, you will find our 3rd grade Money Challenges. Multiplication Math Games How to Print or Save these sheets Need help with printing or saving? Solve problems involving measurements of length, time, liquid volume, mass. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Understand the concept of area and perimeter. Sample Grade 3 Math Worksheet Welcome to our 3rd Grade Math Worksheets Hub page. learn to read and write Roman numerals Each worksheets consists of a sequence which has been partially filled in. Measure and estimate liquid volumes and masses of objects. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. All the 3rd grade math worksheets in this section support Elementary Math benchmarks. Find the areas of rectangles by multiplying side lengths. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Here you will find a range of printable mental math 3rd grade sheets for your child to enjoy. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. Know and understand different types of angles and find these in 2D shapes. Top of Page The following games involve different Third Grade Math activities which you and your child can enjoy together. Understand a fraction as a fraction on a number line or scale. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Draw a scaled picture graph or scaled bar graph to represent data. Top of Page Using the 3rd Grade Math worksheets will help your child to: apply their addition, subtraction, and multiplication skills; develop their knowledge of fractions; apply their knowledge of rounding and place value; solve a range of 'real life' problems. These challenges involve solving money problems and are a great way for kids to develop their reasoning skills and practice their counting money at the same time. Find and recognize equivalent fractions using models Compare two fractions with the same numerator or the same denominator. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Within each section, the sheets are carefully graded with the easiest sheets first. learn to balance math equations All the 3rd grade math worksheets below support elementary math benchmarks. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Solve 1- and 2-step problems involving all 4 operations. Relate area to multiplication and repeated addition. There are a range of matching and wordsearches for children to enjoy whilst developing their number bond knowledge. Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these: Each grab pack is a collection of 10 worksheets covering a range of math topics (plus a game in some of the packs). 3rd Grade Christmas Math Activities For those of you who have found yourselves unexpectedly at home with the kids and need some emergency activities, we have developed some Math Grab Packs. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. This ebooklet is available in our store - use the link below to find out more! Top of Page We have started creating sets of seasonal worksheets for each grade. Top of Page The following worksheets will help your child to: Identify and name a range of 2d and 3d shapes; Draw 2d shapes; Use reflective symmetry to reflect shapes in a mirror line. Here you will find our selection of printable third grade math worksheets, for your child will enjoy. Number Bonds to 50 and 100 Top of Page Using these 3rd grade math worksheets will help your child to: learn to add numbers mentally to 100; add on 1, 10, 100 and 1000 to different numbers; learn to add 4 digit numbers in columns; Top of Page Using these 3rd grade subtraction worksheets will help your child to: learn to subtract numbers mentally to 100; learn to do 4 Digit column subtraction. Find areas of rectilinear shapes by decomposing them into rectangles. Describe, analyze and compare properties of 2D shapes. Top of Page Using these 3rd grade math worksheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Third Grade Multiplication problems. 3rd Grade Money Challenges Using the sheets in this section will help your child to: tell the time to the nearest 5 minutes; become familiar with both digital and analogue times; use the words 'past' and 'to' to describe the time correctly. add and subtract time intervals from times and work out time intervals. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these 3rd grade math worksheets will help your child to: learn their place value with 4 digit numbers; use place value models to understand how to combine thousands, hundreds, tens and ones; understand the value of each digit in a 4 digit number; learn to use standard and expanded form with 4 digit numbers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. If you can't find what you are looking for, try searching the site using the Google search box at the top of each page. The rest of each sequence must be completed. The puzzles will help your child practice and apply their addition, subtraction and multiplication facts as well as developing their thinking and reasoning skills in a fun and engaging way. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Top of Page Using these 3rd grade math worksheets will help your child learn to: understand how division and multiplication relate to one another; know their division facts to 10x10; begin to learn 2 digit by 1 digit long division. These sheets are great for linking to a particular topic, or doing some math that relates to the time of year. On this page you will find link to our range of math worksheets for 3rd grade. Measure areas by counting squares. Measure time intervals. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Become familiar with members of the quadrilateral family and their properties. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. At this grade, the focus is on counting on and back in constant steps of a digit. Perhaps you would prefer our time worksheets, or learning about line or block symmetry? Counting on and back by digits Using these 3rd grade math worksheets will help your child to: round a number to the nearest 10, 100 or 1000; use the > and < symbols correctly for inequalities; use multiples and apply them to solve problems. Using our random worksheet generator, you can: Choose the tables you want to test; Choose how big you want the numbers to go - up to 5 times, 10 times or bigger! Choose how many questions per page.
